Education

Rowan University (Glassboro, NJ)

Expected May 2028

[B.A.] *Computing & Informatics*, [Minor] *Technical & Professional Writing*, [Undergrad. Certificate] *Chinese*

GPA: 3.90/4.0

Skills

Data Analysis: pandas, matplotlib, seaborn, Jupyter Notebook, SQL/SQLite3.

Programming Languages: C++, C#, Python, HTML/CSS, JavaScript.

Software: Microsoft Excel, Tableau Desktop/Public, Unity.

Projects

Nightreign End-of-Game Analysis, *Python (pandas, matplotlib, seaborn)*

May 2026 – July 2026

- Analyzed player-class pick frequency, relic build patterns, and team composition win rates among ~100 randomly matchmade games with ~200 total players.
- Designed the dataset to exclude self-selected picks from frequency analyses, addressing selection bias inherent to non-random player choice.

Rowan University Admissions Trends Analysis, *Tableau + IPEDS data*

June 2026 – July 2026

- Investigated effects of COVID-19, test-optional SAT policy adoption, and the SFFA v. Harvard ruling on undergraduate admissions trends using IPEDS data and Tableau.
- Restructured raw data into long/tidy format and normalized SAT scores across years via College Board concordance tables.

Platformer/Puzzle Game “Platformania”, *Unity + C#*

February 2026 – May 2026

- Solo-built a 2D platformer (code, art, sound, and animation) with trick-platform and puzzle mechanics for Advanced Programming Workshop course; hosted on faculty website.

Experience

Writing Tutor/AI Trainer, *DataAnnotation* (Remote Contract)

April 2026 – Present

- Created and reviewed rubrics with concise criteria to judge AI responses.
- Cross-referenced online sources to ensure AI responses are accurate and helpful.
- Wrote explanations of AI responses and documented information discrepancies.

Front of House Associate, *Gao Sheng Chinese Restaurant* (Woodstown, NJ)

June 2019 – Present

- Managed high-volume cash and card transactions accurately.
- Fulfilled responsibilities independently while also being able to work with others.
