Education

[B.A.] Computing & Informatics, Rowan University (Glassboro, NJ) **Expected May 2028**
GPA: 3.90

[Minor] Technical & Professional Writing, Rowan University **Expected May 2027**

[Undergrad. Certificate] Chinese, Rowan University **May 2026**

Skills

Data Analysis: pandas, matplotlib, seaborn, Jupyter Notebook.

Programming Languages: C++, C#, Python, HTML/CSS, JavaScript.

Software: Microsoft Excel, Tableau Desktop/Public.

Projects

Nightreign End-of-Game Analysis, Python (pandas, matplotlib, seaborn) **May 2026 – July 2026**

- Analyzed player-class pick frequency, relic build patterns, and team composition win rates among ~100 randomly matchmade games with ~200 total players.
- Designed the dataset to exclude self-selected picks from frequency analyses, addressing selection bias inherent to non-random player choice.

Rowan University Admissions Trends Analysis, Tableau + IPEDS data **June 2026 – July 2026**

- Investigated effects of COVID-19, test-optional SAT policy adoption, and the SFFA v. Harvard ruling on undergraduate admissions trends using IPEDS data and Tableau.
- Restructured raw data into long/tidy format and normalized SAT scores across years via College Board concordance tables.

Experience

Writing Tutor/AI Trainer, DataAnnotation (Remote Contract) **April 2026 – Present**

- Created and reviewed rubrics with concise criteria to judge AI responses.
- Cross-referenced online sources to ensure AI responses are accurate and helpful.
- Wrote explanations of AI responses and documented information discrepancies.

Front of House Associate, Gao Sheng Chinese Restaurant (Woodstown, NJ) **June 2019 – Present**

- Managed high-volume cash and card transactions accurately.
- Fulfilled responsibilities independently while also being able to work with others.
