EDUCATION

Rowan University (Glassboro, NJ)

Expected May 2028

[B.A.] Computing & Informatics, [Minor] Technical & Professional Writing, [CUGS] Chinese

GPA: 3.90/4.0, *Relevant Coursework: Data Structures*

SKILLS

Data Analysis: pandas, matplotlib, seaborn, Jupyter Notebook, SQL/SQLite3.

Programming Languages: C++, C#, Python, HTML/CSS, JavaScript.

Software: Microsoft Excel, Tableau Desktop/Public, Unity.

PROJECTS

Nightreign End-of-Game Analysis, *Python (pandas, matplotlib, seaborn)*

May 2026 – July 2026

- Analyzed player-class pick frequency, relic build patterns, and team composition win rates among ~100 randomly matchmade games with ~200 total players.
- Designed datasets to exclude self-selected data from frequency analyses to eliminate selection bias from non-random player choice.

Rowan University Admissions Trends Analysis, *Tableau + IPEDS data*

June 2026 – July 2026

- Investigated effects of COVID-19, test-optional SAT policy adoption, and the SFFA v. Harvard ruling on undergraduate admissions trends using IPEDS data and Tableau visualizations.
- Restructured raw data into long/tidy format and normalized SAT scores across years via College Board concordance tables.

Platformer/Puzzle Game “Platformania”, *Unity + C#*

February 2026 – May 2026

- Solo-built a 2D puzzle-platformer with custom assets for Advanced Programming Workshop course; hosted on faculty website.

EXPERIENCE

Writing Tutor/AI Trainer, *DataAnnotation* (Remote Contract)

April 2026 – Present

- Create and review prompts with concise criteria to judge AI responses.
- Cross-reference online sources to ensure AI responses are accurate and helpful.
- Write explanations of AI responses and document information discrepancies.

Front of House Associate, *Gao Sheng Chinese Restaurant* (Woodstown, NJ)

June 2019 – Present

- Manage high-volume cash and card transactions accurately.
- Fulfill responsibilities while also being able to work with others.

LEADERSHIP EXPERIENCE

Technical Writing Team Lead, *Recommendation Report* (Rowan University)

March 2026 – April 2026

- Organized a team of 4 students by assigning responsibilities based on individual strengths and preferences.
- Communicated with team members to check in on progress and helped resolve a team member’s scheduling conflict.
- Formatted and designed final report document with team’s contributions; submitted 3 days ahead of deadline with passing grades for all team members.
